

Europe's No. 1 EFP™* Fish Oil Range

The "Gold Standard" in Omega-3 Fatty Acid Supplements
Now exclusively available in the USA

- HIGHEST** purity Omega-3 fatty acid range on the market
- MOST** reliable source of up to 95% Omega-3 fat
- NO** use of solvents like hexane
- NO** use of high heat as used by molecularly distilled brands
- MAXIMUM** preservation of Omega-3 fat integrity
- UNDISPUTABLE** benefits of fish oil starting with only 1 capsule

Compare the quality and amount of Omega-3 fatty acids per capsule with other brands and you will realize how distinct and affordable Minami Nutrition products are.

Minami Nutrition's obsession with the most stringent purity levels and environment friendly manufacturing is why countries from Scandinavia to New Zealand have discovered the best quality Omega-3 fatty acid range in the world.

Simply put, NOT all fish oils are created equal.

- (*) **EFP™ is your assurance that this product is "Environmentally Friendly Purified".**

MINAMI NUTRITION

NOT all Omega-3 Fatty Acid Supplements are created equal.

Minami Nutrition is known throughout the world for producing the "Gold Standard" in Omega-3 fatty acids from fish oil because of:

Purity

Minami Nutrition supplements are the most pure on the market with Omega-3 fatty acids that work best for you. All products meet or exceed US standards for contaminants such as mercury, lead, cadmium, PCB's, pesticides, dioxins and oxidation levels.

Concentration

Minami Nutrition products have an unprecedented concentration of omega 3 fatty acids so that you can obtain the benefit of fish oil from just one capsule.

Taste

Minami Nutrition prides itself on providing a great tasting supplement with no fishy after-taste with added natural fruit flavors like orange and lemon.

EFP™ Status

Molecular distillation is commonly used to purify Omega-3 fats from fish oil. Minami Nutrition does not use this method and instead employs a patented EFP* CO₂ distillation process to make the leading Pharmaceutical Grade Deep Sea Fish Oil Range in an environmentally friendly, pure, natural and cost effective way.

Proof...not Promises

Minami Nutrition is driven by research and evidence first before making claims which may be proven false in the future.

No Saturated Fat Or Trans Fat

There are no saturated fats in Minami Nutrition fish oils and due to the use of a low temperature EFP* CO₂ distillation process there is no risk of Trans fats.

Your Assurance of the Highest Concentration Omega-3 Fatty Acid Supplement on the Market

MorEPA™

To bolster cardiac health, maintain emotional well-being, support concentration and mood as well as joint and skin health.
